Key to the photograph xi

List of participants ..... xii–xiv

Tribute: An appreciation of the life and work of David G. Frey (1915–1992)
by C.A. Duigan & C.A. Cotten ..... xv–xvi

Genetics

What can molecular markers tell us about the evolutionary history of *Daphnia* species complexes?
by K. Schwenk, A. Ender & B. Streit 1–7

Genetic variation in *Simocephalus* (Anomopoda: Daphniidae) in North America: patterns and consequences
by B.J. Hann 9–14

Large Hardy-Weinberg equilibrium deviations in the *Daphnia longispina* of Lake El Tobar
by C.E. King, M.R. Miracle & E. Vicente 15–23

Differences in genetic structure and ecological diversity between parental forms and hybrids in a *Daphnia* species complex
by J. Müller & A. Seitz 25–32

Effects of salinity on the life history and fitness of *Daphnia magna*: variability within and between populations
by M. Teschner 33–41

Taxonomy, systematics and biogeography

Changing attitudes toward chydorid anomopods since 1769
by D.G. Frey † 43–55

Phylogeny and adaptive radiation within the Anomopoda: a preliminary exploration
by G. Fryer 57–68

The evolution of groundwater Cladocera
by H.J. Dumont 69–74

Altitudinal distribution of tropical planktonic Cladocera
by J. Green 75–84

The conservation ecology of the Podonidae from the Caspian and Aral Seas
by N.V. Aladin 85–97
Distribution and biology of marine cladocerans in the coastal waters of southern China
by K.W. Tang, Q.C. Chen & C.K. Wong 99–107

Feeding, growth, reproduction

Synergistic effects of different food species on life-history traits of *Daphnia galeata*
by M. Boersma & J. Vijverberg 109–115
Effects of *Microcystis aeruginosa* on interference competition between *Daphnia pulex* and *Keratella cochlearis*
by A. Sartonov 117–126
The influence of prey hardness on *Daphnia's* selectivity for large prey
by W.R. DeMott 127–138
Egg size and egg mass of *Daphnia magna*: response to food availability
by I. Trubetskova & W. Lampert 139–145
Reduced digestibility of UV-B-stressed and nutrient-limited algae by *Daphnia magna*
by E. van Donk & D.O. Hessen 147–151
UV-B tolerance of alpine and arctic *Daphnia*
by I.D. Zellmer 153–159

Behaviour

An account of a preliminary mechanistic model of swimming behaviour in *Daphnia*: its use in understanding diel vertical migration
by J. Ringelberg 161–165
Life history characteristics of *Daphnia magna* clones in phototactic behaviour
by L. De Meester 167–175
Diel horizontal migration and swarm formation in *Daphnia* in response to *Chaoborus*
by O.V. Kvam & O. T. Kleiven 177–184
Behavioural and morphological changes in polymorphic *Daphnia* related to different predation regimes
by E.M. Lysebo 185–191
Seasonal occurrence and diel locomotor activity in littoral Cladocera in a mesohumic lake in Norway
by J.I. Koksvik 193–201

Predator–prey, host–parasite interactions

Effects of predator-released chemicals on some life history parameters of *Daphnia pulex*
by A. Engelmayer 203–206

The influence of a fish exudate on two clones of the hybrid *Daphnia galeata* × *hyalina*
by T. Reede & J. Ringelberg 207–212
Changes in epibiotic burden during the intermolt of *Daphnia* determined by hypodermal retraction stages
by R.L. Willey & S.T. Threlkeld 213–219

Predation and competition in zooplankton communities

An in situ test of the effects of food quality on *Daphnia* population growth
by B.T. De Stasio Jr., L.G. Rudstam, A. Haning, P. Soranno & Y.C. Allen 221–230
Interrelationships between crustacean zooplankton and phytoplankton: results from 15 years of field observations at the mesotropic Saidenbach Reservoir (Germany)
by W. Horn & H. Horn 231–238
Life history characteristics and distribution of *Bythotrephes longimanus* Leydig (Crustacea, Onychopoda) in the Biesbosch reservoirs
by H.A.M. Ketelaars, A.J. Wagenvoort, R.F. Herbst, P.A.W. van der Salm & G.-A.J. de Jonge-Pinkster 239–251
Competition or niche segregation between *Holopedium* and *Daphnia*; empirical light on abiotic key parameters
by D.O. Hessen, B.A. Faafeng & T. Andersen 253–261
Interactions between Nile tilapia (*Oreochromis niloticus*) and cladocerans in ponds (Khartoum, Sudan)
by F.A.R. Elhigzi, S.A. Haider & P. Larsson 263–272
Leptodora kindti: efficient predator and preferred prey item in Neusiedler See, Austria
by A. Herzig 273–282
Cyclomorphosis as a factor explaining success of a *Daphnia* hybrid in Tjeukemeer
by P. Spaak 283–290
Morphological variation and population dynamics of *Bosmina* (*E*). *longicornis kessleri* Uljanin (*Crustacea: Anomopoda: Bosminidae*) in the Bukovec Reservoir (S. E. Slovakia)
by I. Hudec 291–297

Index 299–307
